

Professor David Johnson to visit the PREDICT network – September 2014

Professor David Johnson is a pediatric emergency physician, medical toxicologist, a Professor of Pediatrics and Physiology and Pharmacology at Alberta Children's Hospital and the University of Calgary. He has been an original founder and first President of Pediatric Emergency Research Canada (PERC), has extensive experience conducting multicentre clinical trials and multicentre cluster controlled and pragmatic Knowledge Translation trials. Professor Johnson will visit the PREDICT network to share his expertise and mentor to our team.

Visit dates to PREDICT sites:

23/9/14 – 28/9/14 - Starship / Kidsfirst Hospitals, Auckland, New Zealand

29/9/14 – 5/10/14 – Royal Childrens Hospital, Melbourne, Australia

6/10/14 – 7/10/14 – Sydney Children's Hospital, Sydney, Australia

Events involving David Johnson:

1/10/2014, 1pm AEST
